INDEPENDENT AUDITOR'S REPORT

Board of Directors
The Edible Schoolyard Project

We have audited the accompanying financial statements of The Edible Schoolyard Project, a California nonprofit corporation (the Organization), which comprise the statements of financial position as of June 30, 2013 and 2012, and the related statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Edible Schoolyard Project as of June 30, 2013 and 2012, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

THE EDIBLE SCHOOLYARD PROJECT

Notes to Financial Statements

1. NATURE OF OPERATIONS

The Edible Schoolyard Project (Organization) is a nonprofit public benefit corporation incorporated in California in 1996. The purpose of the Organization is to build and share a food curriculum for all schools that will become part of the core curriculum of every school in the country.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation - The financial statements of the Organization have been prepared using the accrual basis of accounting and accordingly reflect all significant receivables, payables, prepayments and similar accruals. Financial statement presentation follows financial accounting standards applicable to not-for-profit organizations. Under such standards, the Organization is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted, temporarily restricted and permanently restricted.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts and disclosures in the financial statements. Actual results could differ from such estimates.

Cash and equivalents – For purposes of the statement of cash flows, the Organization considers all highly liquid investments with original maturities of three months or less to be cash equivalents unless otherwise restricted or designated. The Organization places its cash and temporary cash investments with high credit quality institutions. Periodically, such deposits may be in excess of federally insured limits.

Investments - The Organization has reported its investments in marketable securities with readily determinable fair values and all investments in debt securities at their fair values in the statement of financial position. Investments received by gift are recorded at market value at the date of the donation. Unrealized gains and losses are included in the change in net assets.

Inventory - Inventory is carried at the lower of cost or market and consists of printed publication materials. Inventory is valued using the average cost method.

Property and equipment - The Organization capitalizes expenditures in excess of $1,500 for property and equipment at cost, and records donated equipment at the estimated fair market value at the date of donation. Routine repairs and maintenance are expensed as incurred. Property and equipment are depreciated over the following estimated useful lives of the related asset using the straight-line method.

	Lives
Office equipment and improvements	10 - 15 years
Equipment	3 - 5 years
Edible Schoolyard garden	5 - 15 years

Restrictions on net assets - The Organization has no temporarily restricted or permanently restricted net assets.

Contributions - Revenues are reported as increases in unrestricted net assets unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in unrestricted net assets. Gains and losses on assets and liabilities are reported as increase or decreases in unrestricted net assets unless their use is restricted by explicit donor restriction or by law. Contributions that are restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire in the period in which the contributions are recognized.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Gifts in kind - The Organization receives donations of gifts in kind such as program supplies, food and beverages for special events and gift certificates. Gifts in kind received through donations are valued at fair market and are recorded as revenue at their fair value at the time the contribution is received. The Organization received $16,012 of gifts in kind during the year ended June 30, 2013 which has been included in corporate donations.

Contributed services - No amounts have been reflected in the financial statements for donated services. The Organization generally pays for services requiring specific expertise. However, many individuals volunteer their time and perform a variety of tasks that assist the Organization, but these services do not meet the criteria for recognition as contributed services. The Organization received approximately 3,000 volunteer hours during both years ended June 30, 2013 and 2012.

Functional allocation of expenses - Expenses by function have been allocated among program and supporting services classifications on the basis of estimates made by the Organization's management.

Reclassifications - Certain prior year amounts have been reclassified to conform to with current year financial statement presentation.

3. INVESTMENTS

Investments consist of the following at year end:

	2013	2012
Cash and equivalents	$ 390,202	$ 52,437
Certificates of deposit	150,233	422,178
Exchange traded funds	194,637	182,945
Corporate stock	22,770	16,830
Mutual funds	532,267	1,367,609
Fixed income securities	1,436,160	604,432
	$ 2,726,269	$ 2,646,431

Investment fees were $5,539 and $5,925 for the years ended June 30, 2013 and 2012 respectively and are included in management and general expenses.

4. NOTE RECEIVABLE

The Organization made an unsecured loan of $300,000 in June 2012 to The Edible Schoolyard New York City (ESY NYC), a related party. The note was repaid in June 2013, and does not bear interest. No allowance for doubtful accounts has been recorded as management believes the loan is fully collectible.

5. PLEDGES RECEIVABLE

Pledges receivable represent unconditional promises to give, which have been made by donors, but not received yet. No allowance for doubtful accounts has been recorded as management believes all pledges to be fully collectible. Pledges receivable consisted of unrestricted pledges made to the Organization for the year ended June 30, 2013 and are receivable over the next one to five years.

6. PROPERTY AND EQUIPMENT

Property and equipment consists of the following at June 30:

	2013	2012
Office equipment and improvements	$ 77,302	$ 77,302
Equipment	51,036	51,036
Edible Schoolyard garden	67,843	34,029
	196,181	162,367
Less: Accumulated depreciation	(119,994)	(100,106)
	$ 76,187	$ 62,261

7. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Organization has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2013 and 2012:

Fixed income securities: Certain corporate and government bonds are valued at the closing price reported in the active market in which the bond is traded.

7. FAIR VALUE MEASUREMENTS (CONTINUED)

Common stocks: Certain common stocks are valued at the closing price reported in the active market in which the individual securities are traded. Investments in certain restricted common stocks are valued at the quoted market price of the issuer's unrestricted common stock less an appropriate discount. If a quoted market price for unrestricted common stock of the issuer is not available, restricted common stocks are valued at a multiple of current earnings less an appropriate discount. The multiple chosen is consistent with multiples of similar companies based on current market prices.

Mutual funds: Valued at the net asset value (NAV) of shares, based on quoted market prices, held by the Organization at year-end.

Exchange traded funds: Valued at the NAV of shares, based on quoted market prices, held by the Organization at year-end.

Certificates of deposit: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Organization's management believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Organization's assets at fair value at year end:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
2013				
Certificates of deposit	$ -	$ 150,233	$ -	$ 150,233
Exchange traded funds	194,637	-	-	194,637
Corporate stock	22,770	-	-	22,770
Mutual funds	532,267	-	-	532,267
Fixed income securities	1,436,160	-	-	1,436,160
	$ 2,185,834	$ 150,233	$ -	$ 2,336,067
2012				
Certificates of deposit	$ -	$ 422,178	$ -	$ 422,178
Exchange traded funds	182,945	-	-	182,945
Corporate stock	16,830	-	-	16,830
Mutual funds	1,367,609	-	-	1,367,609
Fixed income securities	604,432	-	-	604,432
	$ 2,171,816	$ 422,178	$ -	$ 2,593,994

8. INCOME TAXES

The Organization is exempt from federal taxes on income under Internal Revenue Code Section 501(c)(3) and is classified by the Internal Revenue Service as other than a private foundation. The Organization is exempt from state taxes under Section 23701(d) of the California Revenue and Taxation Code and therefore no provision for income taxes has been recorded.

The Organization has analyzed tax positions taken for filings with the Internal Revenue Service and all state jurisdictions where it operates. The Organization believes that income tax filing positions will be sustained upon examination and does not anticipate any adjustments that would result in a material adverse affect on the Organization’s financial position, results of operations or cash flows. Accordingly, the Organization has not recorded any reserves, or related accruals for interest and penalties for uncertain income tax positions for the years ended June 30, 2013 and 2012.

As of June 30, 2013, periods subsequent to 2009 are subject to audit by various taxing authorities; however, there are currently no audits for any tax periods in progress.

The Organization’s policy is to classify income tax related interest and penalties in interest expense and other expenses, respectively. The Organization has not recognized any interest and penalties for the years ended June 30, 2013 and 2012, respectively.

9. RELATED PARTY TRANSACTIONS

The Organization is party to the following transactions with Chez Panisse Restaurant (Restaurant), which is owned by the Organization's President.

> For events and fundraisers, the Organization makes supplies orders through the Restaurant. Total orders made totaled $58,278 and $74,376 for the years ended June 30, 2013 and 2012, respectively.
>
> The Restaurant receives royalties for its branded dinnerware sold by the outside manufacturer. The Restaurant donates these royalties to the Organization, which have been included in corporate donations. Total royalties donated were $10,630 and $9,930 for the years ended June 30, 2013 and 2012, respectively.

The Organization's President receives honorariums for speaking and publishing engagements, which are then donated to the Organization. Total honorariums received by the Organization were $10,100 and $1,000 for the years ended June 30, 2013 and 2012, respectively, and has been reported in individual donations.

The Organization made an unsecured loan to ESY NYC in June 2012 as described in Note 4. One of the Organization's Board members is also a board member of ESY NYC.

10. RETIREMENT PLAN

The Organization's employees participate in a 403(b) defined contribution plan (Plan). The Plan is open to all employees for salary deferrals immediately. The Organization makes discretionary contributions to the Plan, which employees are eligible for after one year and 1,000 hours of service for the Organization. The Organization's contributions to the plan amounted to $33,410 and $17,639 for the years ended June 30, 2013 and 2012, respectively.

11. COMMITMENTS

The Organization leases two corporate offices in Berkeley under operating leases which both expire in December 2013. The leases require monthly rental payments of $3,581. Total rent expense was $42,972 for the years ended June 30, 2013 and 2012. Future minimum lease commitments under the operating leases for 2014 is $21,486.

12. SUBSEQUENT EVENTS

The Organization's management has reviewed the results of activities for the period of time from its year ended June 30, 2013 through September 24, 2013, the date the financial statements were available to be issued, and has determined that no adjustments are necessary to the amounts reported in the accompanying financial statements nor subsequent events have occurred, the nature of which would require disclosure.
