Person with the flower shares their observations, questions, and ideas and asks the visiting person:

- *"Do you think I have all the structures I could draw on my scientific drawing? If not, what more could I add?"*
- *"Did anything about my flower remind you of your flower?"*

Visiting person asks clarifying questions to the person with flowers:

- *"Does your flower have _____?" (name a structure: sepals, petals, stamen, pistil)*
- *"How is it represented in your drawing?"*
- *"What did you notice about this structure? What do you think the function is?"*
- *"What do you wonder about your flower?"*
