Create your own: Planter Box

1. Choose a container
   - Wooden box
   - Old dresser drawer
   - Pot

2. Drill of cut holes in the bottom for drainage

3. Line it with cloth so that soil doesn't spill out
   - Dish towel
   - Cheese cloth

4. Fill with potting soil mixed with compost

5. Add some organic nutrients
   - Worm castings
   - Fish emulsion
   - Kelp meal

6. Choose a watering system
   - Drip irrigation
   - Hand watering

7. Direct seed or transplant your favorite plants

8. Keep watering and keep growing!
